

Hauser Lake Fire Protection District

Standard Operating Guideline TRAINING

Effective: _1_/_1/_2011

SOG 23

TRAINING

1. The following is required training for all Firefighters:
 - a. I-700
 - b. ICS-100
 - c. Essentials of Firefighting
 - d. Hazmat Awareness
 - e. S130/S190 Safety Standards for Wildland Firefighting
 - f. CPR
 - g. First Aid
2. The following is recommended training:
 - a. Emergency Medical Responder or EMT
3. Procedures
 - a. All training will be conducted in such a manner that personal safety is of highest priority. All applicable polices, guidelines and procedures will be followed during any training.
 - b. All “hands on” training will be conducted in the most realistic manner possible with attention given to operations be conducted in the same manner as would be used on an actual incident.
 - c. For in house training the lead instructor will submit a roster of those attending and a brief synopsis of the training subject matter for documentation.
 - d. For off site or CBT training it is the responsibility of the attendee to submit documentation of attendance including a description of training, copies of certificates, etc. for their personnel record. If an original certificate is submitted the department will make a copy for the file and return the original to the member.
4. A member may request, at any time, a record of training attended, at which time a printout of their record will be supplied. Copies of certificates may also be requested.
